# FORWARD LOOKING STATEMENTS & OTHER INFORMATION

This presentation, including our “2011 Financial Outlook”, contains forward-looking statements. The Company’s representatives may also make forward-looking statements orally from time to time. Statements in this presentation that are not historical facts, including statements about the Company’s beliefs and expectations, earnings guidance, recent business and economic trends, potential acquisitions, estimates of amounts for deferred acquisition consideration and “put” option rights, constitute forward-looking statements. These statements are based on current plans, estimates and projections, and are subject to change based on a number of factors, including those outlined in this section. Forward-looking statements speak only as of the date they are made, and the Company undertakes no obligation to update publicly any of them in light of new information or future events, if any.

Forward-looking statements involve inherent risks and uncertainties. A number of important factors could cause actual results to differ materially from those contained in any forward-looking statements. Such risk factors include, but are not limited to, the following:

- risks associated with severe effects of national and regional economic downturn;
- the Company’s ability to attract new clients and retain existing clients;
- the spending patterns and financial success of the Company’s clients;
- the Company’s ability to remain in compliance with its debt agreements and the Company’s ability to finance its contingent payment obligations when due and payable, including but not limited to those relating to “put” option rights and deferred acquisition consideration;
- the successful completion and integration of acquisitions which compliment and expand the Company’s business capabilities; and
- foreign currency fluctuations.

The Company’s business strategy includes ongoing efforts to engage in material acquisitions of ownership interests in entities in the marketing communications services industry. The Company intends to finance these acquisitions by using available cash from operations and through incurrence of bridge or other debt financing, either of which may increase the Company’s leverage ratios, or by issuing equity, which may have a dilutive impact on existing shareholders proportionate ownership. At any given time the Company may be engaged in a number of discussions that may result in one or more material acquisitions. These opportunities require confidentiality and may involve negotiations that require quick responses by the Company. Although there is uncertainty that any of these discussions will result in definitive agreements or the completion of any transactions, the announcement of any such transaction may lead to increased volatility in the trading price of the Company’s securities.

Investors should carefully consider these risk factors and the additional risk factors outlined in more detail in the Annual Report on Form 10-K under the caption “Risk Factors” and in the Company’s other SEC filings.

# DEFINITION OF NON-GAAP MEASURES

- **EBITDA:** EBITDA is a non-GAAP measure, that represents operating profit plus depreciation and amortization, stock-based compensation, acquisition deal costs, deferred acquisition consideration adjustments and profit distributions from affiliates.
- **Organic Growth:** Organic revenue growth is a non-GAAP measure that refers to growth in revenues from sources other than acquisitions or foreign exchange impacts.
- **Free Cash Flow:** Free cash flow is a non-GAAP measure that represents EBITDA less net income attributable to noncontrolling interests, less capital expenditures net of landlord reimbursements, less net cash interest (including interest paid and to be paid on the 11% Senior Notes), less cash taxes plus realized cash foreign exchange gains.
- **Total Free Cash Flow:** Total free cash flow is a non-GAAP measure that represents free cash flow plus changes in working capital plus other changes in cash.
- **Net Bank Debt:** Debt due pertaining to the revolving credit facility plus debt pertaining to the Senior Notes less total cash and cash equivalents.

Note: A reconciliation of Non-GAAP to US GAAP reported results has been provided by the Company in the tables included in the earnings release issued on Nov 1, 2011.
